Delight sauna 2.4x4.3

FONDAMENTA

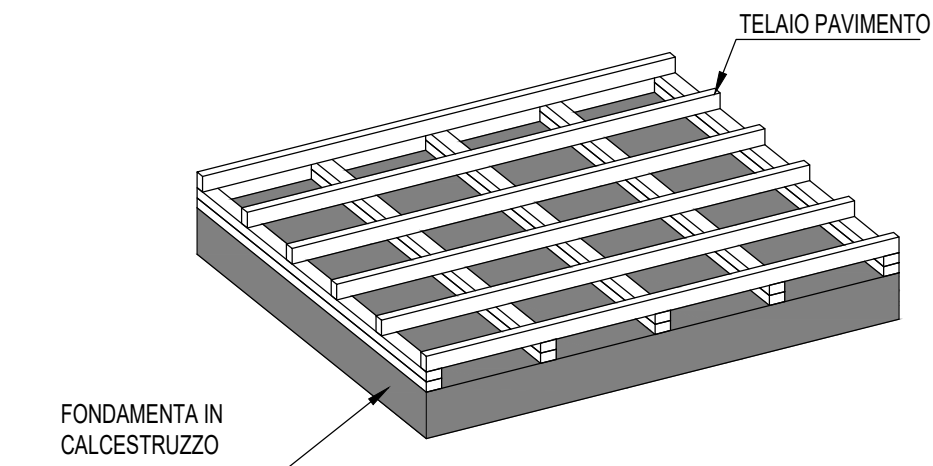

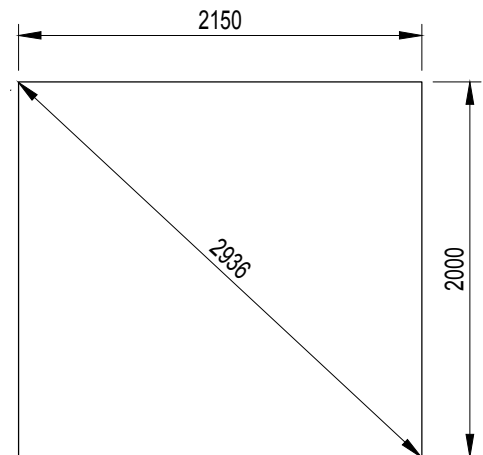

È molto importante avere una base adeguata. Pertanto si consiglia di realizzare la fondazione secondo gli schizzi mostrati di seguito.

Prima di tutto, la fondazione deve essere preparata secondo le condizioni del paesaggio e del terreno in cui sarà realizzata. Le fondamenta sotto il prodotto devono essere preparate in modo che siano omogenee, strette e uguali. Inoltre bisogna assicurarsi che durino nel tempo. Consigliamo di realizzare una base in calcestruzzo. Prima del montaggio della sauna è necessario realizzare un isolamento idrico delle fondamenta.

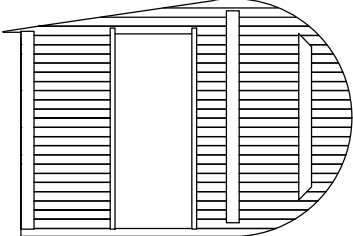

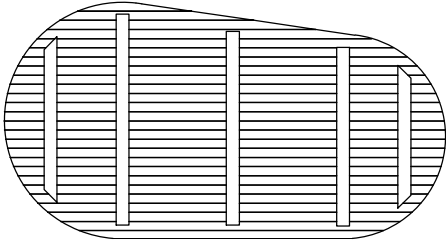

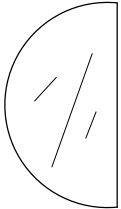

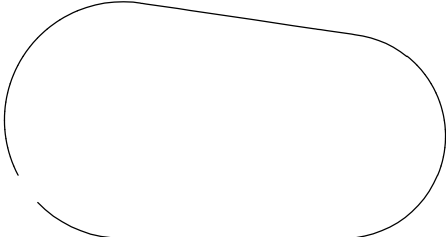

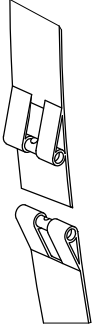

Consulta un costruttore di zona qualificato o un ingegnere per preparare una base adeguata che sia idonea alla zona in cui vivi.

Delle fondamenta non idonee potrebbero causare danni e crepe nella struttura. Inoltre potrebbero modificare la forma dell'edificio danneggiando porte e finestre e nel peggiore dei casi portando al collasso della struttura.

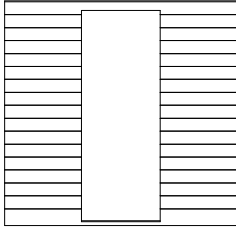

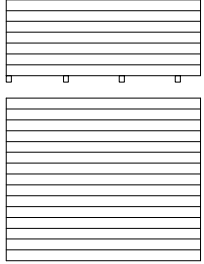

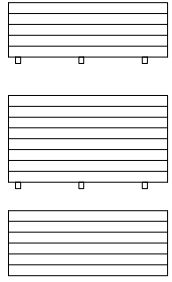

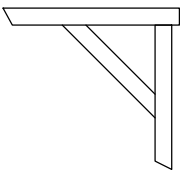

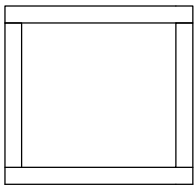

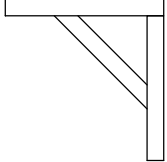

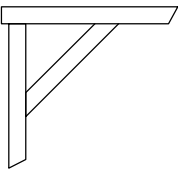

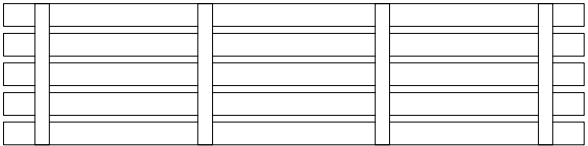

Il mancato rispetto delle corrette istruzioni di assemblaggio fa decadere la garanzia.
